Overview

This course teaches learners how to design and build intelligent applications on the Microsoft Power Platform by using AI, copilots, and agents to solve real business problems. Learners explore how Power Apps, Power Automate, Power Pages, Copilot Studio, and AI-enabled capabilities work together to create agent-first, AI-enhanced solutions that improve productivity, decision-making, and user experience.

Audience Profile

This course is designed for individuals who want to learn how to build intelligent applications using the Microsoft Power Platform and are new to using AI, copilots, and agents in solution design. It is ideal for learners with a general understanding of business processes or app building who want to develop the skills to analyze requirements, select appropriate Power Platform components, and create AI-enhanced solutions. The course introduces how AI and agents can improve application behavior, automation, and user experience, while also building awareness of governance and responsible use as learners begin their journey into intelligent app development.

Contents

Learning Path 1: Get started with AI-first solutions in Microsoft Power Platform

- Design AI-first solutions with Microsoft Power Platform
- Create prompts for generative AI training tools
- Turn business ideas into solutions with Plans

Learning Path 2: Build your data model with Microsoft Dataverse

- Create tables in Dataverse
- Create and manage columns within a table
- Get started with security roles

Learning Path 3: Build intelligent apps and portals with Microsoft Power Apps

- Get started with Power Apps canvas apps
- Customize a canvas app
- Publish and share a canvas app
- Get started with Power Apps model-driven apps
- Configure forms, charts, and dashboards in model-driven apps
- Get started with Power Pages
- Work with Power Pages Studio

Learning Path 4: Automate and extend solutions with AI in Microsoft Power Automate

- Get started with Power Automate
- Use Dataverse triggers and actions
- Build approval flows
- Extend solutions with AI Builder and Copilot Studio

About GTech Learn

Established in 2011 in the USA, GTech Learn is one of the leading IT training organizations in North America & South East Asia. Driven by its unique USPs, GTech Learn is spurring competition, meeting the unmet needs of customers, assisting in skills upgrade, and supplementing talent pools with its presence in the USA, Canada, Singapore and India. This is consistent with our vision to help our Learners with skills upgrade for enhanced career opportunities.

As a Microsoft Learning Partner, we offer a broad range of learning solutions across the full Microsoft technology stack that can be customized.

Since 2011, GTech Learn has been developing custom-fit learning solutions that involve creating and delivering maximum results.

We have successfully helped all types of businesses, government entities, and individuals. For this reason, GTech has chosen by Microsoft to deliver comprehensive learning programs around the globe.

With flexible learning options, state-of-the-art delivery methods, numerous language preferences, experienced instructors, and complete dedication to our students, GTech Learn has the capabilities to help students develop their Microsoft skill sets and achieve increasingly high standards of productivity while organizations of all sizes realize the full potential of their technology investments.
