Overview

This course provides a comprehensive introduction to Microsoft 365, Copilot, and AI-powered agents. It introduces learners to the foundational concepts, core services, and administrative controls of Microsoft 365. It then builds upon this foundation by exploring how Copilot and agents can utilize AI to automate tasks, enhance collaboration, and personalize user experiences across the Microsoft 365 suite.

Audience Profile

This course is designed for beginning-level technical IT/Pros and novice administrators seeking foundational understanding of Microsoft 365 services and Microsoft 365 Copilot. Learners are introduced to the essential components, concepts, and capabilities they need to utilize and manage Microsoft 365, Copilot, and agents without requiring prior hands-on experience.

Contents
