Overview

This course introduces fundamental concepts related to artificial intelligence (AI), and the services in Microsoft Azure that can be used to create AI solutions. It teaches a mix of AI concepts and technology skills that are considered foundational to a successful career implementing AI solutions on Microsoft Azure

Audience Profile

This course is for aspiring technology professionals at the beginning of their career in AI solution development. Some knowledge of Python coding syntax and programming techniques is useful. Additionally, knowledge of core cloud concepts, including cloud storage, cloud compute, and cloud-based authentication and authorization is recommended.

Contents

Learning Path 1: Get started with AI

- Introduction to AI concepts
- Get started with AI in Azure

Learning Path 2: Get started with generative AI and agents

- Introduction to generative AI and agents
- Get started with generative AI and agents in Azure

Learning Path 3: Get started with text analysis

- Introduction to natural language processing concepts
- Get started with text analysis in Azure

Learning Path 4: Get started with AI speech

- Introduction to AI speech concepts
- Get started with AI speech in Azure

Learning Path 5: Get started with computer vision

- Introduction to computer vision concepts
- Get started with computer vision in Azure

Learning Path 6: Get started with information extraction

- Introduction to information extraction concepts
- Get started with information extraction in Azure

About GTech Learn

Established in 2011 in the USA, GTech Learn is one of the leading IT training organizations in North America & South East Asia. Driven by its unique USPs, GTech Learn is spurring competition, meeting the unmet needs of customers, assisting in skills upgrade, and supplementing talent pools with its presence in the USA, Canada, Singapore and India. This is consistent with our vision to help our Learners with skills upgrade for enhanced career opportunities.

As a Microsoft Learning Partner, we offer a broad range of learning solutions across the full Microsoft technology stack that can be customized.

Since 2011, GTech Learn has been developing custom-fit learning solutions that involve creating and delivering maximum results.

We have successfully helped all types of businesses, government entities, and individuals. For this reason, GTech has chosen by Microsoft to deliver comprehensive learning programs around the globe.

With flexible learning options, state-of-the-art delivery methods, numerous language preferences, experienced instructors, and complete dedication to our students, GTech Learn has the capabilities to help students develop their Microsoft skill sets and achieve increasingly high standards of productivity while organizations of all sizes realize the full potential of their technology investments.
