Overview

This course will teach you how to build apps with low-code techniques to simplify, automate, and transform business tasks and processes using Microsoft Power Platform. This course contains a 1-day Applied Workshop. This workshop will allow you to practice your App Maker skills by creating an end-to-end solution to solve a problem for a fictitious company. The solution will include a Microsoft Dataverse database, Power Apps canvas app, and Power Automate flows.

Audience Profile

The App Maker builds solutions to simplify, automate, and transform tasks and processes for themselves and their team where they have deep expertise in the solution business domain. They have basic data modeling, user experience design, requirements analysis, and process analysis skills. The App Maker creates and enforces business processes, structures digital collection of information, improves efficiency of repeatable tasks, and automates business processes. The App Maker uses the Maker tools of Power Platform to solve business problems. They may use advanced features of Microsoft apps and third-party productivity tools. The App Maker is aware of the capabilities and limitations of available tools and understands how to apply them. The App Maker is self-directed, and solution focused. They may not have formal IT training but are comfortable using technology to solve business problems with a personal growth mindset. They understand the operational need and have a vision of the desired outcome. They approach problems with phased and iterative strategies.

Contents

Learning path 1: Introduction to Microsoft Power Platform

- Getting Started with Microsoft Power Platform for app makers
- Get started with Power Apps
- Microsoft Dataverse
- Introduction to environments
- Copilot and Power Platform

Learning Path 2: Introduction to Microsoft Dataverse

- Get started with Dataverse
- Create and manage columns within a table in Dataverse
- Load/Export data and create views in Microsoft Dataverse

Learning Path 3: Introduction to Microsoft Dataverse for Teams

- Get started with Dataverse for Teams
- Build your first app with Dataverse for Teams

Learning Path 4: Create model-driven apps in Power Apps

- Introduction to model-driven apps and Microsoft Dataverse
- Get started with model-driven apps in Power Apps
- Configure forms, charts, and dashboards in model-driven apps
- Manage Dynamics 365 model-driven app settings and security
- Use specialized components in model-driven form

Learning Path 5: Create a Canvas App in Power Apps

- Get started with Power Apps
- Use and understand Controls in a canvas app in Power Apps
- Navigation in a canvas app in Power Apps
- Customize a canvas app in Power Apps
